Re: Tactical-Hunter

Dear Kelly:

The original target is hanging on the wall in my loading room. That's why you got this copy.

I've pulled the trigger on a lot of hunting rifles over the years testing each for accuracy and function. I spend two to three days a week at the range doing this for the different magazines I write for.

Just thought you would like to know this is the smallest five shot group I have ever shot with any 30 Caliber hunting rifle.

If all the Tactical-Hunters perform like this one does I don't think you will ever have one returned with an accuracy problem. Keep up the good work!

Cheers,

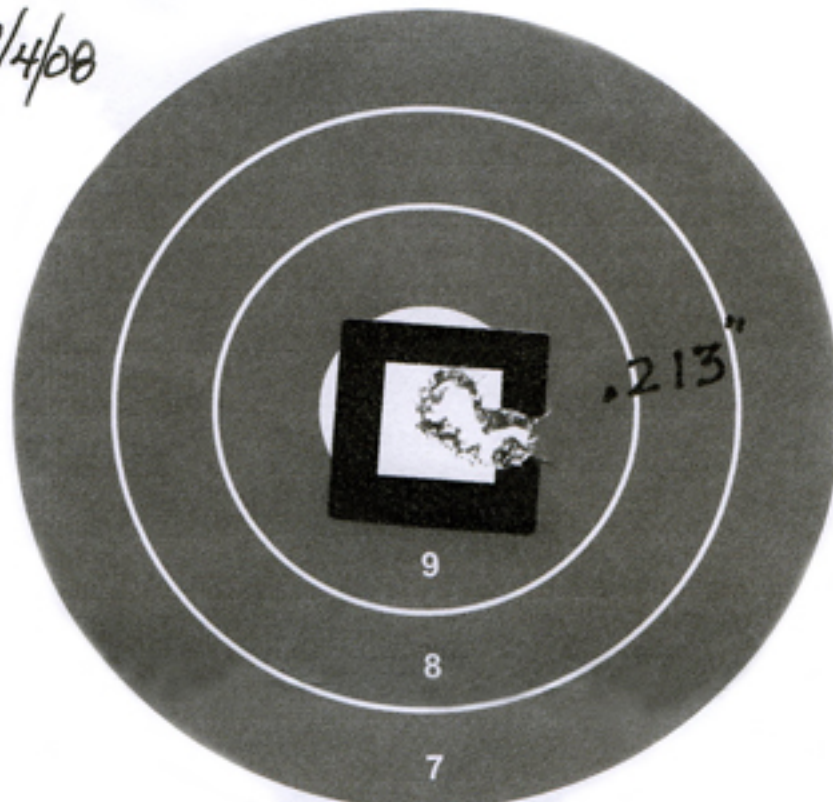

Chub Eastman
