## INSTRUCTIONS

<b>STOCK</b>	Please indicate which stock model you would like to order. For instance, if you wanted to order an Adjustable Game Warden, you would write "ADJ Game Warden" on this line.
<b>SHELL TYPE</b>	We offer two different shell materials to choose from. Typically, if you are purchasing a standard stock, you would select "Fiberglass" and if you are wanting an Ultralight EDGE stock or one of our Carbon Ambush finishes, you would select "Graphite".
<b>FINISH</b>	The "Finish" is the type of pattern you would like. We have several molded-in and painted options. Molded in patterns cost more than painted finishes. View our "Colors and Finishes" page on our website for more information.
<b>COLOR</b>	Some of our finishes, notably the marble, flame, camo, paint and speckletone finishes, allow you to select which colors you want in the pattern.
<b>FILL TYPE</b>	We have several fill options. The "Sporter" fill is the standard fill used on most stocks. "EDGE" fill is for stocks utilizing EDGE Technologies, and "Magnum" fill is for hunting stocks shooting magnum calibers like .300 WBY. "Sniper" fill is generally used in tactical stocks and can handle everything up to .50 BMG. Other than their strength, they have different weights, "EDGE" being the lightest, then "Sporter", "Magnum", and "Sniper" fill is the heaviest.
<b>ACTION</b>	Please indicate the bolt and port orientation, the action size, make and model of action that you will be using for your build.
<b>FLOOR PLATE OR TRIGGER GUARD</b>	Please select if you want machined-in aluminum pillars or not. Please indicate if this is a single shot, blind mag, hinged floor plate or DBM (drop box magazine) system, as well as the make and model for the bottom metal you will be using. This includes trigger guards as well.
<b>MISC.</b>	If you have upgraded your recoil lug to a thicker one, please indicate the thickness here. If you selected no for machined in pillars above, then you may request we drill the action screw holes a specific size so you can install your own pillars. Typical sizes are 9/16", 1/2", or 5/8th". Caliber/Cartridge is required to make sure we build the stock to handle the recoil of your rifle.
<b>BARREL</b>	Barrels come in many shapes and sizes. Each maker has their own contours and each gunsmith cuts barrels differently. If you have a factory rifle with a factory barrel, please indicate it as a factory barrel in the "make" box by writing the brand name and write the factory contour in the "contour" box. (i.e., "Sporter, Remington"). "Cylinder Length" is measured from the face of the action to the first change in the contour of the barrel. We do not need a barrel cylinder measurement for factory barrels.
<b>INLET TYPE</b>	We offer three inlet types. "Full Inlet" is typically drop in ready and comes ready to install your action. A "Basic Inlet" is just a barrel channel and action outline, it is not cut for the trigger, recoil lug, bottom metal, bolt, or ports. This option is great for Gunsmiths who like to do their own fitting. The "Flat Top" is no inlet, there are no cuts in the stock whatsoever.
<b>BUTT PAD</b>	We offer several recoil pads and buttplate systems, please indicate the type you want and if using a fixed Length of Pull indicate the LOP you would like. 13.5" is the industry standard. Not all butt plate systems are compatible on all stocks.
<b>CHEEK PIECE HARDWARE</b>	We offer several cheekpiece options, please select the one you would like on your stock. Not all stocks can have an adjustable cheek piece.
<b>STUDS</b>	We offer traditional sling studs in stainless steel and blued finishes.
<b>FLUSH CUPS</b>	Flush mount cups are quick detach push button sling mounts and can be installed on the bottom and sides of most stocks; please indicate the quantity and location.
<b>MCMILLAN PICATINNY ANSCHUTZ® AND FREELAND RAILS</b>	We manufacture our own rails and provide a few options from other makers as well. Not all stocks can accommodate these rails.

**There are three ways to order your McMillan fiberglass stock:**

- Call 877.365.6148 to place your order
- Fax this order form to 623.581.3825
- Or scan and email it to [stocks@mcmillanusa.com](mailto:stocks@mcmillanusa.com)

• 1638 West Knudsen Drive, Phoenix, Arizona 85027 • Phone: 623.582.9674 • Toll Free: 877.365.6148
